- 滅蟲公司上門服務
- 請不要自行移除或移動滅鼠裝置

Zero Toxic  
Chemical  
Substances  
殺滅過程  
環保無毒

## Why Innovative Rat Control is Critical? 為何創新方案清除老鼠如此重要？

Traditional rat poison baits contain highly toxic substances, which may be ingested by children and pets and cause harm. 傳統老鼠藥餌含有劇毒物質，可能會被小孩與寵物誤食造成傷害。

Traditional methods may not kill rats in a short period of time, increasing animal suffering and affecting the business environment with noise. 傳統方法可能造成长鼠短時間難以死亡，增加動物痛苦同時噪音影響生意環境。

With traditional methods, rats can die in hard-to-find locations and emit unpleasant odors. 傳統方法下，老鼠可能死於難以發現的位置並散發令人不悅的氣味。
